

# Update 7: Israel - Plans to Impose Lockdowns in 30 Cities Amid High COVID-19 Morbidity

- Israel's Corona Cabinet has decided to impose closures on 30 cities and towns starting next Monday (September 14)
- These are places with the highest morbidity rates, which were recently declared as "red" as part of a new program, which classifies all places into four colors according to morbidity level
- The lockdowns include night curfews, traffic restrictions, limitations on shops and other businesses, and the closure of all schools and kindergartens
- As of now, Israel reported 126,419 confirmed COVID-19 cases with 993 deaths (0.7% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<https://govextra.gov.il/ministry-of-health/corona/corona-virus-en/>) for latest information on COVID-19 in Israel

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
