

Update 06: Yemen - Government to Resume Commercial and Humanitarian Flights Amidst Rise in COVID-19 Cases

- On September 14, Yemen authorities have allowed Two of the five international airports (Aden and Seiyun) to be opened for commercial and humanitarian flights
- However, the capital Sana'a airport will remain closed
- All 15 sea border points and three land border points are partially open for movements now
- 10 transit points in Taizz and Al Bayda remain active to monitor public movements between southern and northern governorates
- No curfews are in effect across the country
- Authorities at the Al Wadea land border point have allowed stranded Yemeni's to return from the Kingdom of Saudi Arabia, after temperature checks
- Yemen recorded 2,013 new COVID-19 cases in last 24 hours
- As of now, Yemen reported 2,013 confirmed COVID-19 cases with 583 deaths and 1,215 recoveries
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<http://www.moh.gov.ye/>)for the latest information on COVID-19 in Yemen

Impact level Definitions

| Impact Level | Definitions |
|---------------|--|
| Immediate | Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc. |
| High | Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc. |
| Medium | Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession. |
| Low | Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc. |
| Informational | The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc. |
