

# Update 16: Madrid, Spain - Extends Local Lockdowns to Eight New Areas Amid Rapid Rise in COVID-19 Cases

- On September 25, the Madrid regional government announced that it will extend the COVID-19 mobility restrictions that currently affect 37 basic health areas in the region to eight new zones
- The move was aimed at stopping the spread of virus in the region, which has the highest incidence rate of Covid-19 in Spain, with 746.2 cases per 100,000 inhabitants
- The affected areas are Panaderas (Fuenlabrada); Miguel Servet and Doctor Tueta (Alcorcón); García Noblejas, Vicálvaro-Artilleros, Orcasitas, Campo de la Paloma and Rafael Alberti (Madrid city)
- Starting from Monday (September 28), residents in these areas will only be able to leave the restricted zones for essential business, such as going to school or work, or to care for dependents
- Capacity at stores and other commercial establishments will be set at 50%
- Bar service will be prohibited and public parks in the affected zones will also be closed
- All the measures will last for at least two weeks starting from September 28
- As of now, Spain has reported 735,198 COVID-19 confirmed cases with 31,232 related deaths (4.2% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of Spain (<https://www.mschs.gob.es/>) for the latest information on COVID-19 in Spain

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
