

Update 21: Myanmar (Burma) - Extends Stay at Home Restriction to 11 New Areas to Curb COVID-19 Spread

- On September 27, Myanmar has brought more areas under the stay at home restrictions as COVID-19 cases reached close to 10,000
- Authorities ordered that 11 new areas under Mon state, Mandalay region, Bago region, and Ayeyawady regions will have to observe stay at home restrictions
- The people from these regions are ordered to stay at home with government employees to work in rotation from home and office in a two-week cycle
- Excluding essential services and people working at ports, communications, banking and financial institutions, other offices and companies, work places have been ordered to be closed temporarily
- As of now, Myanmar reported 9,991 confirmed COVID-19 cases with 198 deaths (1.9% of total reported cases) and 2,681 recoveries (26.8% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health and Sports (<https://www.mohs.gov.mm/>) for the latest information on COVID-19 in Myanmar

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
