

Update 37: Indonesia - Issues United Kingdom Travel Ban Over COVID-19 Variant

- Indonesia has banned travellers from Britain and tightened the rules for those arriving from Europe and Australia to try to limit the spread of a new coronavirus variant
- Circular issued by the country's COVID-19 task force said foreigners arriving from Britain, where a coronavirus variant is spreading rapidly, would not be allowed entrance
- Travellers from Europe and Australia must bring a negative swab test result, be retested upon arrival and, even if that test is negative, quarantine for five days
- As of now, the country has reported 692,838 confirmed COVID-19 cases with 20,589 deaths (3% of total reported cases), and 563,980 recoveries (81% of the total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (<https://www.kemkes.go.id/index.php?lg=ln02>) for the latest information on COVID-19 in Indonesia

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
