

Update 27: Ontario, Canada - Confirms Two Cases of New COVID-19 Variant

- On December 26, health officials in Ontario said that two confirmed cases of the new COVID-19 variant have appeared in the Canadian province
- The Public Health Agency of Canada urge citizens to follow public health measures and limit contact with others, to reduce the transmission of the virus and any of its variants in communities as the two identified cases did not travel outside Canada
- Also, the Canadian government banned all flights arriving from Britain on December 20 until January 6, 2021, in response to concerns over the COVID-19 variant
- As of now, the country has reported 552,020 confirmed COVID-19 cases with 14,963 deaths (2.71% of total reported cases), and 457,193 recoveries (~83% of the total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<https://www.canada.ca/en/health-canada.html>) for latest information on COVID-19 in Canada

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
