

Update 23: Zimbabwe - Imposes 30 Day Lockdown Restrictions Amid Rise in COVID-19 Infections

- The Zimbabwean government plans to start 30 days of lockdown regulations following an increase in COVID-19 infections during the festive season
- Gatherings are reduced to not more than 30 people at all funerals in the capital city of Harare
- All other gatherings at weddings, churches, bars, bottle stores, gymnasium, restaurants are banned for 30 days
- Restaurants, bottle stores, and bars are closed for 30 days except for bars and restaurants serving hotel residents
- Essential services such as hospitals, pharmacies, and supermarkets, with only essential staff are allowed to open
- As of now, Zimbabwe has reported 14,491 confirmed COVID-19 cases with 377 deaths (2.6% of total reported cases) and 11,363 recoveries (78.4% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of Zimbabwe (<http://www.mohcc.gov.zw/>) for the latest information on COVID-19 in Zimbabwe

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
