

Update 57: Manila, Philippines - Government Plans to Ban Entry of Travelers from Six More Countries to Limit Spread of New COVID-19 Variant

- Starting Friday, January 08, the Philippines will block foreign travelers from six more countries following the detection of the new and more infectious COVID-19 variant in these places
- Foreign travelers from Portugal, India, Finland, Norway, Jordan, and Brazil and who have been in any of these countries within 14 days before arrival in the Philippines are prohibited to enter the Southeast Asian country from January 08 to 15
- Filipinos coming from or who have been to the six countries within 14 days immediately preceding arrival in the Philippines, including those arriving after Friday, January 08, will be allowed to enter the Philippines
- However, these Filipinos need to complete a 14-day quarantine period, even if the COVID-19 test shows negative results
- The government first suspended all flights from Britain beginning Thursday, December 24, 2020, and later extended the ban to include more 20 other countries and regions
- All foreign nationals flying from or having been to these 21 areas are not permitted to enter the Philippines until Friday, January 15
- The new variant first found in Britain has not been detected in the Philippines so far, the Department of Health said on Wednesday, January 06
- On Wednesday, January 06, the Philippines reported 1,047 new COVID-19 cases and also logged 26 new deaths
- Topping the list of areas with new cases are Davao City with 79, Quezon City with 58, Laguna with 55, and Bulacan and Cagayan de Oro City with 40 each
- As of now, the country has reported 482,083 confirmed COVID-19 cases, with 9,356 deaths (1.9% of total reported cases), and 449,052 recoveries (93.1% of total reported cases)
- When compared to overall population of the country, confirmed COVID-19 cases and fatality rate stands at 0.44% and 0.008%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Disease Prevention and Control Bureau (<https://www.doh.gov.ph/node/689>) for the latest information on COVID-19 in the Philippines

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
