

Update 18: South Africa - Reports 1,259,748 Confirmed COVID-19 Cases in Total; Announces Closure of Land Borders Until February 15, 2021 to Curb the Spread of Infection

- On January 11, 2021, South Africa's President Cyril Ramaphosa announced the closure of land borders for a month, in a bid to curb the fast spread of the COVID-19 infection
- All major South African borders save for a few will remain closed until February 15, 2021, in an effort to address the congestion and high infection risk as thousands of South Africans return to towns after the holidays
- Cabinet has decided that the 20 land ports of entry that are currently open will be closed until the February 15, 2021 for general entry and departure
- The border posts include: Lebombo, Maseru Bridge, Beitbridge, Oshoek, Ficksburg and Kopfontein
- The President, however, said exceptions would be made for the transportation of fuel, cargo, emergency medical attention, the return of South African nationals and permanent residents or persons with other valid visas
- As of now, the country has reported 1,259,748 confirmed COVID-19 cases with 34,334 deaths, 2.7% of total reported cases and 1,019,123 recoveries, 80.9% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 2.11% and 0.06%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult South African National Department of Health (<http://www.health.gov.za>) for latest information on COVID-19 in South Africa

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
