

Update 20: Sudan - Lifts Ban on Travel from Countries with New COVID-19 Variant

- As of January 13, 2021, Sudan has lifted a ban on travelers coming from Britain, the Netherlands, and South Africa until April 11, 2021
- The country imposed the ban on December 23, 2020, due to the discovery of a new variant of COVID-19 in the three countries
- Instead of the ban, travelers from the three countries have to now quarantine for 14 days after arriving in Sudan, and must report any disease symptoms to health officials
- Additionally, all travelers coming from abroad must have a certificate showing a negative test for COVID-19 issued within 72 hours of travel
- As of now, the country has reported 25,730 confirmed COVID-19 cases with 1,576 deaths, 6.13% of total reported cases, and 15,240 recoveries, 59.23% of the total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 0.055% and 0.003%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (<http://www.fmoh.gov.sd/En/>) for the latest information on COVID-19 in Sudan

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
