

Update 11: Indonesia - 490 New COVID-19 Cases Reported, Totaling 16,496; Imposes Protocols to Prevent Imported COVID-19 Infections

- Indonesia reported 490 new COVID-19 infections and 33 new deaths, taking the total number of cases to 16,496 and deaths to 1,076
- The country has tested 132,060 people
- 34,360 patients with suspected acute respiratory illnesses were being treated across the country
- The Indonesian Health Ministry has established specific health protocols for the arrivals of migrant workers and foreign nationals in the country to avoid the transmission of COVID-19
- The stride came as Indonesia braces for the return of about 34,000 migrant workers whose work contracts will expire in May and June
- According to the task force, the workers and foreign citizens are expected to find out the procedures that they have to undergo upon their arrivals in Indonesia
- Indonesia has barred all arrivals and transits by foreign citizens into the country to prevent further spread of the virus, but holders of stay permits, diplomats and other official visitors are exempted from the policy
- The country's capital of Jakarta and other cities have been applying partial lockdowns to abide by the government's instruction on physical distancing
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<https://www.kemkes.go.id/index.php>) for the latest information on COVID-19 in Indonesia

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
