

Update 6: Iran - Faces Second Wave of COVID-19 Infections as Death Toll Surges Past 7,000

- Iran is facing a “second wave” of coronavirus infections as the official death toll surged past 7,000
- The southwestern province of Khuzestan is the new focal point, with the most critical “red” ranking on the country’s color-coded risk scale
- Health Ministry’s latest report said there was a “rising trend, or the beginning of a peak” in eight provinces, including Khuzestan
- The ministry raised the overall death toll to 6,988 since Iran announced its first fatalities in the pilgrimage city of Qom in February
- Iran reported 2,294 new coronavirus cases, the highest daily increase in more than six weeks
- The rise took the overall tally to 122,492 confirmed cases of the disease
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health and Medical Education (<http://ird.behdasht.gov.ir/>) for the latest information on COVID-19 in Iran

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
