## Targets Affected:

Indonesia

### Guidance

#### *Actions to consider:*

- Determine if all management teams in impacted areas are current on all government-designated guidelines and restrictions and are aware of possible misdiagnosis due to the ongoing COVID-19 pandemic and Dengue concurrently
- It is advisable that third parties or captive units educate employees and conduct workshops to help increase awareness about the vector-borne diseases and its preventive measures
- SW Subscribers should determine if third parties or captive units have in-house health professionals to detect sickness and quarantine suspected disease carriers spotted within the business premises, if any
- SW Subscribers should ensure appropriate Business Continuity Plans and Programs are activated
- Consider implementing more detailed actions related to 'Increase in Positive Cases/Deaths' under the 'COVID-19: Actions to Consider' section below / next page

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
