

Update 10: Iran - Reports Higher Fatality During Second COVID-19 Surge, Surpassing 16,000

- Iran is currently experiencing a second surge of COVID-19 cases since its first surge in early May
- The number of daily deaths during Iran's second surge is considerably higher than its first surge and is also higher compared to other countries
- This could be due to prolonged pressure on Iran's healthcare system, as well as inequalities in healthcare access and social security
- Total COVID-19 infections in Iran hit 301,530 after registration of 2,621 new cases
- Meanwhile, 226 new death cases were registered over the past 24 hours, taking the death toll in the country to 16,569
- So far, 261,200 patients have recovered and 4,041 remain in critical condition
- Twenty-seven Iranian provinces are in high-risk or alert condition over the disease
- Iran announced its first cases of COVID-19 on February 19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health and Medical Education (<http://ird.behdasht.gov.ir/>) for the latest information on COVID-19 in Iran

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
