

Update 7: Somalia - Resumes International Flights from August 03, 2020 Amid Decrease in COVID-19 Cases

- Somalia has announced that international flights to and from the country would resume from August 03, 2020
- The federal government of Somalia had banned international flights in March 2020 after the country recorded its first case of COVID-19
- The Somali government announced that travellers into the country would be required to have a COVID-19 negative certificate upon arrival
- The certificate should be issued at least three days before the arrival
- Somalia has recorded a decline in COVID-19 cases with the country recording 3,220 and 93 deaths as of now
- However, please note that instances of countries witnessing a surge in COVID-19 cases has been recorded in the recent past post lifting restrictions
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<http://moh.gov.so/en/>) for the latest information on COVID-19 in Somalia

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
