

# Update 25: Pakistan - Reports Highest Daily of 2,443 COVID-19 Cases in Four Months, Raising National Total to 359,032

- Pakistan reported the highest single-day spike in COVID-19 cases since mid-July 2020, recording more than 2,400 new cases
- The country reported 32 people have died from COVID-19 over the last 24 hours
- The country has recorded over 22,000 cases in November 2020, following health experts' warning about a second wave of COVID-19 along with the looming flu season
- Cases and fatalities have started to rise following the reopening of schools, cinemas, and other entertainment venues, in addition to the lifting of a ban on big weddings in September 2020
- Authorities, in an attempt to contain the fresh wave of infections, has instituted smart lockdown restrictions, including closure of cinemas and theatres, and a ban on indoor weddings and public gatherings
- The government is also considering announcing winter vacations in educational institutes before the schedule
- Prime Minister Imran Khan, though, has rejected the possibility of returning to a complete lockdown, insisting it would ruin Pakistan's already tottering economy
- As of now, the country has reported 359,032 COVID-19 cases with 7,160 deaths (2% of total reported cases) and 323,824 recoveries (90.2% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of National Health Services, Regulation and Coordination (<http://www.nhsrhc.gov.pk/>) for the latest information on COVID-19 in Pakistan

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
