

# Update 78: India - Reports Technical Recession Since Independence Amid COVID-19 Outbreak

- India has entered a technical recession for the first time since independence in Q2 FY 2020 as COVID-19 pandemic continues to spread
- The two successive quarters of contraction meant that the country has now entered a technical recession for the first time since 1947
- The country's Gross Domestic Product (GDP) contracted by 7.5% in the July-September 2020, period in comparison to the same period last year
- India's economy recovered faster than expected in September 2020, quarter as a pick-up in manufacturing helped GDP clock a lower contraction of 7.5%
- GDP had contracted by a record of 23.9% in Q1 FY 2020, as the COVID-19 lockdown pummelled economic activity
- As of now, India has recorded 9,393,039 confirmed COVID-19 cases and 136,733 related deaths (~1.5% of total reported cases), and 8,802,267 recoveries (~93.7% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the National Center for Disease Control (<https://ncdc.gov.in/>) for the latest information on COVID-19 in India

|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immediate     | <b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.                                                                                                                      |
| High          | <b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.                      |
| Medium        | <b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession. |
| Low           | <b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.              |
| Informational | The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.                  |
