

Update 28: Algeria - Government Plans to Resume Some Domestic Flight Operations from December 06, 2020

- Algeria's Government announced that it would allow some domestic flights to resume from December 06, 2020, to ease the financial impact of COVID-19 curbs on state carrier Air Algerie
- Algeria's Prime Minister informed that Air Algerie would resume all flights to southern towns and half of its flights to and from northern airports
- The airline had suspended international and domestic flights in March 2020 to prevent the infection of COVID-19
- The Government has said Air Algerie is expected to record a loss of around US\$272 M this year from COVID-19
- As of now, Algeria has reported 83,199 confirmed COVID-19 cases with 2,431 related deaths (2.92% of total reported cases) and 53,809 recoveries (64.6% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health, Population, and Hospital Reform (<http://www.sante.gov.dz/>) for the latest information on COVID-19 in Algeria

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
