

Update 25: Spain - Confirmed COVID-19 Cases Near Nearly 1.65 M With 45,000 Deaths

- Spain reported nearly 20,000 new coronavirus infections and 401 more deaths between Friday and Monday, after a weekend marked by large crowds in some Spanish cities
- The epidemiological situation in Spain continues to improve, but experts fear that reopenings combined with the holiday season could trigger a third wave before vaccines become available
- New infections were down around 5,000 this weekend compared to the previous weekend, and active hospitalizations continue to drop
- Spanish hospitals are now treating around 14,500 COVID-19 patients, compared to more than 21,000 earlier this month
- Nearly 12% of all the country's hospital beds and 27% of all available intensive care units are being used to treat infected patients
- November has been by far the deadliest month in Spain since April. The Health Ministry reported around 7,900 more lives lost this month - nearly double that of October
- Madrid also eased restrictions in 13 neighborhoods, meaning 380,000 more people are now able to travel freely throughout Spain's capital city and region
- As of now, the country reported 1,664,945 confirmed COVID-19 cases with 45,069 deaths (2.70% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of Spain (<https://www.mscbs.gob.es/>) for the latest information on COVID-19 in Spain

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
