

Update 23: Myanmar (Burma) - International Flights to Remain Suspended Until December 31, 2020 Amid COVID-19 Pandemic

- The Myanmar government has extended the current ban on international flights until December 31 due to the coronavirus disease (COVID-19) pandemic
- Exceptions are in place for humanitarian and cargo flights out of Yangon International Airport (YIA)
- Permission for passenger flights may also be given from authorities to transport citizens and essential
- Mandatory quarantine and COVID-19 tests for visitors to the capital have been implemented and entry will only be allowed following a negative result
- Employees in most industries are required to work from home, except for certain industries deemed essential, such as finance, food, water, petrol distribution, and medical
- Only one member of each household may leave the house to purchase supplies, and only two may leave to seek medical care
- Face masks must be worn at all times in public places. A curfew between 23:00 and 04:00 (local time) is in place in Yangon and roads leading out of the city have been locked down
- As of now, Myanmar has reported 90,713 confirmed COVID-19 cases with 1,941 deaths (2.13% of total reported cases) and 70,156 recoveries (77.33% of total reported cases)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health and Sports (<https://www.mohs.gov.mm/>) for the latest information on COVID-19 in Myanmar

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
