

Update 17: Costa Rica - Government Decides to Keep Land Borders Closed Until February 1, 2021 to Contain COVID-19 Pandemic

- The Government of Costa Rica announced that it will maintain the closure of its land borders for foreigners at least until February 1, 2021 as part of the measures against COVID-19
- The president of Costa Rica, Carlos Alvarado, in conjunction with the Ministry of Security and Health, signed an extension to executive decree 42690-MGP-S that allows the closure of land borders
- With this measure, only Costa Rican citizens or foreigners who have a legal stay authorized as a permanent, temporary residence or other special immigration categories can enter Costa Rica by land
- The authorities have warned that the first two weeks of January 2021 will be key to determining the impact they will have on the number of new and hospitalized cases
- As of now, Costa Rica has reported 172,436 confirmed COVID-19 cases with 2,229 related deaths, ~1.29% of total reported cases and 132,916 recoveries, ~77.08% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 3.36% and 0.04%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (<https://www.ministeriodesalud.go.cr/>) for the latest information on COVID-19 in Costa Rica

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
