Update 25: Israel - Daily COVID-19 Cases Hit Record High Of 10,021

- On January 18, 2021, for the first time since the pandemic began, a record 10,021 new COVID-19 cases were confirmed in Israel
- The previous record was reported on January 12, 2021, when the number was 9,589 daily cases
- This comes despite the ongoing full lockdown imposed in Israel on December 27, 2020 and tightened on January 08, 2021
- The rate of positive tests passed the 10 percent mark for the first time in over three months, with 10.2% of the nearly 100,000 tests coming back positive
- Amid the record increase in the active cases, the Health Ministry is likely to push to extend lockdown by a week
- As of now, the country has reported 565,629 confirmed COVID-19 cases with 4,080 deaths, 0.72% of total reported cases, and 4,78,897 recoveries, 84.67% of the total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 6.44% and 0.046%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (https://www.health.gov.il/English/Pages/HomePage.aspx) for the latest information on COVID-19 in Israel

Impact level Definitions

Impact Level	Definitions
Immediate	**Certain** - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	**Highly likely to occur in the near term (within 3 months)** - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	**Likely to occur in the mid-term (within 3 to 6 months)** - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	**Possible in the long-term (after 6 months)** - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
