

Update 22: Panama - Government Eases Curfew, Amid Rise in COVID-19 Cases

- The government is evaluating making curfew times more flexible advancing the opening dates of some activities
- They are thinking not only of bringing forward the reopening dates but also of making the curfew time more flexible
- In other countries, they already closed for the third or fourth time and they do not want to fall into this. They want the reopening to be consistent and that we can continue to support all economic sectors
- In the last two weeks, the authorities decided to advance the reopening of various activities such as restaurants, lottery, and racetrack
- According to the reopening schedule of the Ministry of Health, by March 1, 2021, gyms, massage rooms, beauty salons and spas shall return to activity
- As of now, the country has reported 330,075 confirmed COVID-19 cases with 5,572 deaths, ~1.68% of total reported cases and 303,610 recoveries, ~91.9% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 7.57% and 0.12%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of Spain (<https://www.mscbs.gob.es/>) for the latest information on COVID-19 in Spain

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
