

Update 40: Brazil - Cancels Carnival Celebrations Amid Surge in COVID-19 Cases

- As Brazil exceeds 230,000 COVID-19-related deaths, at least 20 Brazilian states have canceled their carnival celebrations
- In 2021, it would have been celebrated between February 12 to February 17
- The party takes place all month long in several parts of the country
- The first consequence of cancellation is the paralysis of a productive chain that involves thousands of people who work directly or indirectly with carnival
- This is the first time that Rio de Janeiro will not celebrate carnival in more than 100 years
- As of now, the country has reported 9,921,981 confirmed COVID-19 cases with 240,983 deaths, 2.4% of total reported cases, and 8,883,191 recoveries, 89.5% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 4.65% and 0.11%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Oswaldo Cruz Foundation (<https://portal.fiocruz.br/>) for the latest information on COVID-19 in Brazil

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
