

# Update 37: Poland - Reports New Case of South African COVID-19 Variant

- Poland has discovered the South African variant of the coronavirus on its territory
- Health Minister warned that the country was entering a third wave of the pandemic
- Around 10% of coronavirus cases in Poland are currently estimated to be the British variant, and the discovery of another highly contagious mutation in the country adds to the worries of authorities facing a rising tide of infections
- Poland has loosened some restrictions, recently opening ski slopes as well as cinemas, hotels and theatres at up to 50% capacity, however, authorities have warned that these measures may have to be rolled back depending on the pandemic situation
- As of now, Poland has reported 1,631,727 confirmed COVID-19 cases with 42,077 deaths (2.57% of total reported cases) and 1,372,326 recoveries (84.1% of total reported cases)
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 4.2% and 0.11%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
