

Update 33: Alpes-Maritimes, France - Imposes Weekend Lockdown to Contain the Spread of COVID-19

- The French Authorities announced that the residents of France's southeastern region of Alpes-Maritimes will be under lockdown over the next two weekends following a surge in COVID-19 cases
- Residents will only be allowed out for an hour during the daytime within a five-kilometer radius and for a very limited set of reasons
- The reason includes essential shopping, visiting a doctor, carrying out physical activity, and walking pets
- It is to be noted, the local lockdown measure comes on top of the national night-time curfew running from 6:00 pm to 6:00 am
- Authorities said the lockdown area will impact about 90% of the Mediterranean region and includes the cities of Cannes, Nice, and Menton
- Also, shops with a surface area of over 5,000 square meters have been ordered to shut down from February 23, 2021, for at least 15 days
- The number of people allowed at any given time in shops of over 400 square meters has been reduced to one person for every 15 square meters
- As of now, the country has reported 3,609,827 COVID-19 confirmed cases with 84,613 deaths, 2.34% of total reported cases and 250,532 recoveries, 6.94% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 5.52% and 0.13%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of France (<https://solidarites-sante.gouv.fr/>) for the latest information on COVID-19 in France

Impact level Definitions

| Impact Level | Definitions |
|---------------|--|
| Immediate | Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc. |
| High | Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc. |
| Medium | Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession. |
| Low | Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc. |
| Informational | The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc. |
