

Update 42: Brasilia, Brazil - Imposes 24 Hour Lockdown in Capital City Effective February 27, 2021 to Curb the Surge in COVID-19 Cases

- The governor of Brazil's capital city, Brasilia, decreed a 24-hour lockdown for all apart from essential services on February 26, 2021, to curb COVID-19 outbreak
- The drastic step came as the pandemic has killed over 250,000 Brazilians
- The lockdown will be effective from February 27, 2021 and will be 24-hours everyday
- Shops, pharmacies, gas stations, churches, and funeral parlors will remain open but everything else will shut down, especially bars and restaurants, which were blamed for increased spread during the end of 2020 and carnival holidays
- Intensive care wards in Brasilia are as full as they were at the peak of the pandemic in 2020, with more than 80% of the beds still occupied
- The situation is as bad or worse in cities across Brazil, with intensive care beds in the capitals of 17 of Brazil's 26 states reaching the most critical level since the pandemic began in the year of 2020
- As of now, the country has reported 10,457,794 confirmed COVID-19 cases with 252,988 deaths, 2.4% of total reported cases, and 9,355,974 recoveries, 89.5% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 4.90% and 0.12%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Oswaldo Cruz Foundation (<https://portal.fiocruz.br/>) for the latest information on COVID-19 in Brazil

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
