

Update 42: Spain - Extends Restrictions on Travel From Countries Outside European Union

- Spain's government has decided to prolong its current restrictions on non-essential travel from countries outside the European Union and the Schengen Zone until March 31, 2021
- Authorities in Spain previously imposed these restrictions, which were set to last until February 28, 2021
- However, they have prolonged them further after taking into account the rapid spread of the COVID-19 disease
- All travelers from countries that do not belong to the Schengen Zone will not be permitted to make trips to Spain unless necessary
- However, Spain's government has announced that citizens from countries in which the number of COVID-19 cases of infections is not considered high will be allowed to make their journeys
- Authorities in Spain saw it necessary to tighten the preventive measures to maintain under control the spread of the virus
- Therefore, they have decided to also extend their imposed restrictions on flights from South Africa, Brazil, and the United Kingdom until March 15, 2021
- As of now, the country has reported 3,204,531 confirmed COVID-19 cases with 69,609 deaths, 2.17% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 6.85% and 0.14%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health of Spain (<https://www.mscbs.gob.es/>) for the latest information on COVID-19 in Spain

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
