

Update 25: Hungary - Announces Stricter Restrictions for Travelers Outside of European Union

- Prime Minister Viktor Orbán called on the COVID-19 operative board to implement stricter border restrictions for people travelling outside of Europe, even in the cases of business-related travel
- Previously, any Hungarian citizen who traveled abroad could return to Hungary without travel restrictions if they could prove that they went on a business trip
- These rules have now been changed in two ways
- The first new regulation states that only those returning from a European Union (EU) members state, a member of the European Economic Area (EEA), or a citizen of the UK can avoid restrictions such as quarantine
- The government added other countries to this list in a second decree provided on March 1, 2021
- The second regulation includes the non-EU and non-EEA countries from which Hungarian citizens can return without restrictions
- These countries include the US, China, Russia, India, Indonesia, Israel, Japan, South Korea, Turkey, Ukraine, Singapore, Bahrain, and the UAE
- The citizens or people living for more than 90 days in the countries included in these two decrees can also travel to Hungary without restrictions, but only for business and economic purposes
- These regulations are in place until March 15, 2021 and can be extended after that
- Also, Surgeon General Cecilia Muller said that Hungary must prepare for a surge in COVID-19 cases during a third wave due to the spread of the British and South African variants of the COVID-19
- On March 2, 2021, the PSZ teachers' union said the government should launch remote learning in primary schools as well to slow the spread of COVID-19
- As of now, Hungary has reported a total of 435,689 confirmed COVID-19 cases, 15,188, ~3.48% of total cases related to deaths, and 324,202, ~74.41% of total cases recoveries
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 4.5% and 0.15%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the National Health Center (<https://www.nnk.gov.hu/>) for the latest information on COVID-19 in Hungary

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
