

Update 20: Vietnam - Plans to Resume International Flights Amid COVID-19 Pandemic

- On March 31, 2021, the Civil Aviation Authority of Vietnam (CAAV) submitted a proposal to the Ministry of Transport to resume international flights in three phases
- In phase one, flights are targeted at bundled flight and hotel travel packages for Vietnamese citizens serving 14-day quarantines
- Phase two will be implemented from July 2021, that will focus on re-establishing air connectivity with other countries
- The third stage will begin in September 2021, in which Vietnam will target daily return flights to each destination country
- Also, in third phase, Vietnam will allow entry to foreigners with a negative COVID-19 test result or vaccine certificate to serve a shortened seven from 14-day home-quarantine
- However, CAAV said that the launch of final phase will depend on the progress of Vietnam's vaccination program and it plans to restore air connectivity with countries
- As of now, Vietnam has reported 2,603 confirmed COVID-19 cases with 35 deaths, 1.34% of total cases and 2,359 recoveries, 90.62% of total cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 0.0027% and 0.00004%, respectively
- In total, 44,000 vaccine doses have been given against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
