

Update 75: Philippines - Reports 15,310 COVID-19 Cases in Last 24 Hours, Highest Daily Cases Since The Pandemic

- The Philippines reported on April 2, 2021 a daily record 15,310 new COVID-19 infections, one of the highest reported in the region since the pandemic started
- It announced 17 new deaths in the last 24 hours
- The Department of Health said the new cases reported on April 2, 2021 included a backlog of 3,709 cases
- The previous record was just over 10,000 new cases
- It should also be noted that on April 3, 2021, the country reported 12,576 new COVID-19 infections, the country's second-highest daily increase
- As of now, the country has reported 784,043 confirmed COVID-19 cases, with 13,423 deaths, 1.7% of total reported cases, and 604,905 recoveries, ~77% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at ~0.7% and ~0.012%, respectively
- In total, 508,332 vaccine doses have been given, ~0.45% of total population
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Ministry of Health (<https://doh.gov.ph/2019-nCoV>) for the latest information on COVID-19 in Philippines

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
