

Update 48: Rio de Janeiro, Brazil - Extends Restrictions Amid Rise in COVID-19 Death Toll

- Rio de Janeiro in Brazil has decided to extend the COVID-19 restrictions
- The authorities have decided to extend the restrictions seeking to limit person-to-person transmission in the city
- This decision has been taken after the death toll due to COVID-19 saw an alarming increase in the city
- While the death toll has been increasing, the occupancy rate of the intensive care unit (ICU) has continued to remain over 90%
- Rio de Janeiro, in particular, has recorded more than 37,000 deaths with a mortality rate of 215 per 100,000
- While the restrictions have been extended, the mayor has announced the reopening of schools for in-person classes from April 06, 2021
- However, all non-essential businesses such as restaurants, cinemas, and museums will stay closed till April 09, 2021, and may reopen only with restricted hours
- As of now, the country has reported 12,912,379 confirmed COVID-19 cases with 328,366 deaths, 2.5% of total reported cases, and 11,276,628 recoveries, 87.3% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 6.0% and 0.2% respectively
- In total, 20,632,877 people have received vaccine doses and 50,78,476 people, 2.4% of total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Oswaldo Cruz Foundation (<https://portal.fiocruz.br/>) for the latest information on COVID-19 in Brazil

Impact level Definitions

| Impact Level | Definitions |
|---------------|--|
| Immediate | Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc. |
| High | Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc. |
| Medium | Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession. |
| Low | Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc. |
| Informational | The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc. |
