

# Update 42: Canada - Confirmed COVID-19 Cases Surpasses One Million with 23,050 Deaths

- Canada has surpassed one million confirmed COVID-19 cases on April 04
- In the last 24 hours, the country has so far reported a total of 1,001,645, cases with 23,050 deaths
- The country is entering a third wave of the deadly virus amid a surge of cases due to the rapid spread of the new variants
- On April 03, British Colombia registered 2,000 new cases and increase in the number of cases has also led to stricter restrictions especially in the two most populous provinces, Ontario and Quebec
- The authorities tightened the restrictions and health measures, especially in Ontario which has registered more than a third of Canada's cases in the past month
- Across the country, non-essential businesses can operate on a 25 % capacity, while the rest can accommodate 50 % capacity
- In total, 6,258,003 vaccine doses have been given and 703,660 people, 1.9% of total population have been fully vaccinated against COVID-19
- As of now, the country has reported 987,918 confirmed COVID-19 cases with 23,002 deaths, 2.30% of total reported cases, and 921,459 recoveries, 91.99% of the total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 2.61% and 0.06%, respectively
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (<https://www.canada.ca/en/health-canada.html>) for the latest information on COVID-19 in Canada

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
