

# Update 35: Colombia - Extend Restrictions Until April 19, 2021 Amid Surge in COVID-19 Cases

- President Ivan Duque said that Colombia will extend COVID-19 restrictions based on intensive care unit occupancy rates amid rising case numbers
- The government has repeatedly warned people not to lower their guard during the Easter holidays and put in place weekend curfews
- Capital Bogota and the cities of Manizales, Armenia, Tunja, Barranquilla, Monteria, Leticia and Pereira are under observation for increasing cases and deaths
- Medellin, Cali, Santa Marta, and Barranquilla are also being watched for decreasing intensive care unit capacity
- Curfews based on ICU capacity will be in place from April 5, 2021 and continue through April 19, 2021
- Cities with an ICU occupancy of above 85% will have a curfew from 6 pm (GMT-5) through 5 am (GMT-5), while those with between 80% and 85% capacity will have curfews beginning at 8 pm
- Curfews will start at 10 pm (GMT-5) for cities with between 70% and 79% occupancy, while those with between 50% and 69% will be restricted from midnight until 5 am (GMT-5)
- Bogota had ICU occupancy rates of 65.5% as of Saturday evening and coastal cities including Caribbean port Barranquilla had rates hovering around 90%
- Shopping and other activities will be regulated by ID numbers
- People who traveled over the holiday to areas with high contagion should self-isolate for at least seven days upon returning home
- As of now, the country has reported 2,446,219 confirmed COVID-19 cases with 64,094 deaths, 2.62% of total reported cases, and 2,317,564 recoveries, 94.74% of the total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 4.76% and 0.12%, respectively
- In total, 23,36,144 people have received vaccine doses and 3,64,253 people, 0.74% of total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult National Institute of Health (<https://www.ins.gov.co/Paginas/inicio.aspx>) for latest information on COVID-19 in Colombia

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
