

Update 42: Ruili, China - Reports Highest Daily Rise in COVID-19 Cases in Two Months

- China reported its biggest daily jump in new COVID-19 cases in more than two months, as a city on the border with Myanmar in southwestern Yunnan province accounted for all new local cases
- Ruili's local government put residents in its urban area under home quarantine and launched a massive testing drive
- Authorities began restricting people from leaving and entering the city from last week
- The city accounted for all of the 15 new local cases reported on April 4, 2021
- The total number of new COVID-19 infections, including imported infections originating from overseas, stood at 32, marking the highest total since January 2021
- Genetic analysis of the cases discovered in Ruili suggest the new local infections stem from viruses imported from Myanmar
- City authorities announced three high risk and six medium risk areas in Ruili
- Authorities urged residents who had visited Jiegaoyu City, a jade market in one of the high-risk areas, between March 15 and 29, 2021 would need to be quarantined at home
- Local authorities have also begun a vaccination drive in Ruili in a bid to contain COVID-19 and build up herd immunity in the city
- The number of new asymptomatic cases, which China does not classify as confirmed cases, stood at 18, matching the total from a day earlier
- As of now, the country has reported 90,329 confirmed COVID-19 cases with 4,636 deaths, 5.1% of total reported cases, and 85,449 recoveries, 94.5% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 0.006% and 0.0003%, respectively
- In total, 139,970,000 vaccine doses have been given
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Chinese Center for Disease Control and Prevention (<http://www.chinacdc.cn/en/>) for latest information on COVID-19 in China

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
