

Update 18: Puerto Rico - Reimposes Night Curfew Starting from April 9, 2021 to Curb the Spread of COVID-19

- The governor of Puerto Rico, Pedro Pierluisi, announced that the curfew will return from April 9, 2021 at 10 pm (GMT-4) to 5 am (GMT-4) as a measure to contain the expansion of the COVID-19
- These measures are included in the new executive order that will be issued to stop the rise in infections due to COVID-19, which will mean that commercial establishments will close at 9 pm (GMT-4)
- All activities that involve crowding of people are prohibited
- In addition to that starting April 8, 2021, everyone over 16 years of age can be vaccinated
- As of now, the country has reported 210,181 confirmed COVID-19 cases with 2,139 deaths, 1.01% of total reported cases, and 96,536 recoveries, 45.92% of the total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 6.19% and 0.06%, respectively
- In total, 12,05,841 vaccine doses have been given and 4,57,252 people, 14.3% of total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Department of Health of Puerto Rico (<http://salud.gov.pr/Pages/Home.aspx>) for the latest information on COVID-19 in Puerto Rico

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
