

Update 52: Spain - Plans to Lift State of Emergency Amid Rise in COVID-19 Cases

- COVID-19 infections continue to rise in Spain, Prime Minister announced that he does not intend to extend the country's state of emergency beyond May 9, 2021
- That is when the emergency legislation, which gives the government powers to enforce curfews and restrict mobility, which is set to expire
- At a press conference, Prime Minister Sanchez said the country's regional governments will still be able to enforce some restrictions to curb contagion
- People shouldn't close the door to extending the state of emergency. The vaccine will not be enough to control the pandemic in May 2020
- Meanwhile, hospitalizations surged, with 519 more COVID-19 patients being admitted than released and 65 more people in intensive care
- As of now, the country has reported 3,317,948 confirmed COVID-19 cases with 75,911 deaths, ~2.29% of total reported cases, and 3,080,466 recoveries, ~92.54% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 7.05% and 0.16%, respectively
- In total 8,743,694 people have received vaccine doses, and 2,852,806 people, 6.1% of the total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health of Spain (<https://www.mscbs.gob.es/>) for the latest information on COVID-19 in Spain

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
