

# Update 46: Indonesia - Announces Internal Travel Ban During Festival to Curb COVID-19 Transmission

- Indonesia has announced an internal travel ban during next month's Eid al-Fitr celebrations to curb COVID-19 transmission
- The country has banned sea, land, air, and rail travel from May 6, 2021 to May 17, 2021
- There are exceptions in place for passengers who fulfill certain requirements, such as official travel or emergency trips
- Some flights will still be allowed to operate during Eid al-Fitr, though they must be granted permission by the Transportation Ministry
- However, cargo and logistics can operate normal
- Authorities have said that vacations lead to a sharp increase in infections and that border security will be increased
- Indonesia had previously banned the mass exodus tradition, locally known as mudik
- As of now, Indonesia has reported 1,552,880 confirmed COVID-19 cases, with 42,227 related deaths, ~2.72 % of total reported cases and 1,399,382 recoveries, ~90% of the total reported cases
- When compared to the overall population of the country, the confirmed COVID-19 cases and the fatality rate stands at ~0.57% and ~0.015%, respectively
- In total 13,452,610 vaccine doses have been given and 4,431,504 people, 1.7% of the total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult the Ministry of Health (<https://www.kemkes.go.id/index.php?lg=ln02>) for the latest information on COVID-19 in Indonesia

# Impact level Definitions

Impact Level	Definitions
Immediate	<b>Certain</b> - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	<b>Highly likely to occur in the near term (within 3 months)</b> - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	<b>Likely to occur in the mid-term (within 3 to 6 months)</b> - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	<b>Possible in the long-term (after 6 months)</b> - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
