

Update 51: Sao Paulo and Rio de Janeiro, Brazil - Eases Restrictions Amid Rise in COVID-19 Cases

- Brazil's Sao Paulo state and the city of Rio de Janeiro are easing restrictions on hospitality businesses and other activities, even as the country continues to break its own records for daily COVID-19 deaths
- Sao Paulo will allow customers to pick up takeaway food from bars and restaurants effective April 12, 2021, while professional sports games will be permitted without crowds, along with a series of other specific activities
- In the city of Rio de Janeiro, officials on April 09, 2021, lifted a broad set of restrictions put in place in late March 2021
- Bars, restaurants, and malls can resume in-person service, though beaches and parks remain closed but an 11 PM (Local Time) to 5 AM (Local Time) curfew remains in effect
- As of now, the country has reported 13,375,414 confirmed COVID-19 cases with 348,934 deaths, 2.6% of total reported cases, and 11,791,885 recoveries, 88.2% of total reported cases
- When compared to the overall population of the country, confirmed COVID-19 cases and fatality rate stands at 6.3% and 0.2% respectively
- In total, 24,981,199 people have received vaccine doses and 5,595,142 people, 2.6% of total population have been fully vaccinated against COVID-19
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
- Please consult Oswaldo Cruz Foundation (<https://portal.fiocruz.br/>) for the latest information on COVID-19 in Brazil

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
