Update 43: Israel - Bans Travel to Seven Countries Amid COVID-19 Pandemic

- On April 30, 2021, Israeli government decided to ban travel of Israeli citizens to seven countries over high COVID-19 morbidity
- The seven are Ukraine, Ethiopia, Brazil, South Africa, India, Mexico and Turkey
- The ban will take effect on May 3, 2021, and will last at least 13 days
- The decision follows a warning against travel to the seven destinations, reflecting both the current situation and the morbidity levels
- The ban does not include non-Israelis who live in these countries permanently, nor does it apply to stays at airports of these countries for connecting flights
- Reported COVID-19 stats for Israel:

  1. Confirmed Cases: 838,481
  2. Deaths: 6,363 (0.75%)
  3. Recoveries: 830,625 (99.06%)

- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments

Impact level Definitions

Impact Level	Definitions
Immediate	**Certain** - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	**Highly likely to occur in the near term (within 3 months)** - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	**Likely to occur in the mid-term (within 3 to 6 months)** - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	**Possible in the long-term (after 6 months)** - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
