

Update 50: Indonesia - Reports Two Cases of COVID-19 Indian Variant

- Indonesia has recorded two cases of a highly infectious COVID-19 variant first detected in India
- The two cases of the Indian variant, known as B.1.617, were found in Jakarta, while the minister said a variant first discovered in South Africa was also detected in Bali
- The variant has now reached at least 17 countries including Britain, Switzerland and Iran, prompting some governments to close their borders to people traveling from India
- The country has been trying to contain the surge of COVID-19 infections and stopped issuing visas last month for foreigners who had been in India in the previous 14 days
- The country has banned festivals for a second year to curb COVID-19 transmission
- The authorities implored people not to travel to their hometowns until the end of May 2021
- **Reported COVID-19 stats for Indonesia:**
 1. Confirmed Cases: 1,677,274
 2. Deaths: 45,796 (2.73%)
 3. Recoveries: 1,530,718 (91.26%)
 4. Vaccinations Administered: 20,015,745
 5. Fully Vaccinated Population: 3%
- Supply Wisdom will continue to monitor and issue alerts for any relevant developments

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
