

Update 62: Spain - Extends Ban on Brazil and South African Arrivals Amid Surge in COVID-19 Cases

- Spain on May 04, 2021, extended a ban on arrivals from Brazil and South Africa until May 25, 2021, to curb the spread of new COVID-19 strains
- Only legal residents or nationals of Spain and neighboring country Andorra are currently allowed in on flights from these countries
- The only exceptions are for passengers in transit who cannot leave the airport nor remain there longer than 24 hours
- Other European nations have imposed similar curbs due to fears that new variants may spread more easily or contain mutations that allow the virus to evade the effects of vaccines
- Since February 22, 2021, all passengers arriving in Spain from Brazil or South Africa have been obliged to undergo 10 days of quarantine, or seven if they can show a negative test
- On March 8th, 2021, that requirement was extended to arrivals from another 10 countries
- Which includes Colombia and Peru, where there is community transmission of the Brazilian strain
- Reported COVID-19 stats for Spain:
 1. Confirmed Cases: 3,544,945
 2. Deaths: 78,399 (2.21%)
 3. Recoveries: 3,222,697 (90.90%)
 4. Doses Administered: 15,859,772
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments
