

Update 21: South Africa - Reports First Four Cases of COVID-19 Indian Variant

- On May 8, 2021 South Africa detected 4 new cases of a COVID-19 variant that is responsible for a surge of COVID-19 infections in India
- The 4 cases of 'B.1.617.2' have been detected in Gauteng and KwaZulu-Natal provinces having a history of recent arrival from India
- 11 cases of 'B.1.1.7' variant first detected in the United Kingdom have also been found
- South Africa is at least the fourth country on the continent to register the 'B.1.617.2' variant
- The country has not yet banned flights from India to limit the spread of its variant
- South Africa is the continent's worst virus-hit country with more than 34% of all cases in the region
- The country's second wave was driven by its own 'B.1.351' variant that quickly dominated infections nationwide earlier in 2021
- Reported COVID-19 stats for South Africa:
 1. Confirmed Cases: 1,594,817
 2. Deaths: 54,724 (3.43%)
 3. Recoveries: 1,514,088 (94.93%)
 4. Vaccine Doses Administered: 2,977,515
 5. Fully Vaccinated: 577,000 (0.7%)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
