

Update 53: Indonesia - Records New Delta Variant Cases of COVID-19; Highest Daily Increase of Cases in Five Provinces

- The Health Ministry reported there are about 28 people in Kudus, Central Java confirmed positive for COVID-19 type B1617.2 variant or Delta variant from India
- The Ministry of Health asked the Regional Government (Pemda) to increase the number of tests to screen for COVID-19 cases and contact tracing
- At the same time, the COVID-19 cases in Indonesia rose by 7,465 within one day to 1,901,490, with the death toll adding by 164 to 52,730
- Three weeks after Eid, COVID-19 cases nationally continue to increase
- On June 10, 2021, COVID-19 cases increased by almost 9,000 or 8,892 people and became the highest since February
- On June 11, 2021, the cases increased by 8,083 people
- DKI Jakarta recorded the highest daily increase of 2,455 people, followed by Central Java with 915, West Java with 876, DI Yogyakarta increased by 436, and Riau with 388 COVID-19 cases
- Also, the United States (US) government appeals to its citizens who are going to Indonesia to reconsider
- The US stated that the reason for the appeal was due to Covid-19, terrorism, and natural disasters
- Center for Disease Control and Prevention, or CDC US (United States Centers for Disease Control and Prevention) has issued a notice Level 3 Health Travel Health Notice or Notice of Level 3 in Indonesia
- In addition, some restrictions apply and affect US citizens and quarantine is being imposed for all foreigners entering Indonesia
- **Reported COVID-19 stats for Indonesia:**
 1. Confirmed Cases: 1,901,490
 2. Deaths: 52,730 (2.77%)
 3. Recoveries: 1,740,436 (91.53%)
 4. Doses Administered: 3,1,195,606
 5. Fully Vaccinated Population: 1,15,25,638 (4.3%)
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
