

Update 02: Chile - Health Authorities Plans to Extend COVID-19 Emergency Through September 2021 Due to Surge in COVID-19 Cases

- On June 14, 2021, Chilean Health Authorities said that they would extend a COVID-19 emergency through September 2021, to allow the government to impose restrictions
- The announcement comes as cases have soared in Chile to some of their highest levels since the pandemic began
- Despite 61% of citizens receiving at least one vaccine dose and 48% being fully vaccinated, authorities plan to extend a COVID-19 emergency through September 2021
- Authorities last week locked down the capital Santiago to ease the burden on hospitals, most of which are at or near capacity
- Health officials also announced that men under the age of 45 who had already received a first dose of the AstraZeneca (AZN.L) vaccine should complete their vaccination cycles with a Pfizer (PFE.N) shot
- Chile raised the age of men approved to receive the AstraZeneca vaccine from 18 to 45 after a young man developed thrombosis with thrombocytopenia syndrome (TTS)
- Reported COVID-19 stats for Chile:
 1. Confirmed Cases: 1,482,663
 2. Deaths: 30,804 (2.1%)
 3. Recoveries: 1,406,555 (94.9%)
 4. Vaccine Doses Administered: 20,403,835
 5. Fully Vaccinated: 48%
- Supply Wisdom is continuously monitoring the situation and will alert you to any relevant developments

Impact level Definitions

Impact Level	Definitions
Immediate	Certain - Supply Wisdom recommends considering prompt action. Examples of Immediate level alert events may include bankruptcy filings, data breaches, unexpected curfews, strikes, power black-outs, major geo-political events etc.
High	Highly likely to occur in the near term (within 3 months) - Supply Wisdom recommends being in a state of readiness to take quick action. Examples of High level alert events may include withdrawal of rating by ratings agencies, hostile takeover, multiple cyber-attacks, new business policies causing significant hardship etc.
Medium	Likely to occur in the mid-term (within 3 to 6 months) - Supply Wisdom recommends reviewing current mitigation steps and being ready to take proactive actions if and when situation deteriorates further. Examples of Medium level alert events may include unplanned C-level exits, suppliers caught in bribery cases, economy slipping into recession.
Low	Possible in the long-term (after 6 months) - Supply Wisdom recommends taking proactive action if situation does not resolve. Examples of Low level alert events may include lawsuits filed against suppliers, client losses, air pollution alerts issued by country's local authorities, unexpected holidays announced for the location etc.
Informational	The event is pertinent information but does not have a risk element associated with it. Examples of Info level alert events may include launch of new solutions, partnerships signed, industry outlook, positive changes in government policies, announcements regarding launch of software parks/ free trade zones/special economic zones etc.
